### **Legend**

Improvement Description: Short, high-level explanation of work to be performed. Example: Lighting, Cooling System, Heating System, Controls, Solar Electric, Elevator Upgrades, Roofing, Building Envelope, etc.

Useful Life: Years of expected useful life of the improvement as documented by the manufacturer.

Contractor: Contractor either scheduled to perform the work or previously performed the work.

Improvement Cost: Amount needed to fund the improvement as listed in the Improvement Description.

Baseline Energy Cost: Annual energy cost, either estimated or actual, of the existing building system. Example: If the improvement is to replace existing fluorescent lights with new LED lights, show the annual energy cost (in dollars \$) of the existing fluorescents.

Projected Energy Savings: The annual energy cost the improvement will save the property owner. If energy generation systems are installed, such as a rooftop solar array, list the annual energy generation dollar amount.
